

Invitation to all Nebraska schools

Register by October 10, 2014

NeMTSS RTI Website: <http://rtinebraska.unl.edu>

Nebraska Multi-Tiered Systems of Support and RTI

Universal Technical Assistance Session

All Nebraska District and Building Teams are invited to participate in the *Universal Technical Assistance* session. This opportunity will be provided to leadership teams from ANY interested schools. Additional information is on the **Nebraska MTSS/RTI** website: <http://rtinebraska.unl.edu>

Universal Technical Assistance Session

District and/or Building Team(s) are invited to participate in the Universal Technical Assistance (UTA) session:

Technical assistance will be provided to leadership teams from districts who have indicated an interest in building a Multi-Tiered Systems of Support (MTSS). Whether your team has been implementing multi-tiered systems for years and would like some assistance with more advanced implementation or your team is just beginning to build a system for implementation of MTSS/RTI, this session is for you. The expert technical assistance providers will be available to answer questions related to implementation of MTSS/RTI, provide feedback on MTSS/RTI implementation documents that your district has developed, and guide next steps in your process. This session will include a brief presentation of MTSS/RTI content and the majority of the day will consist of time for your team to meet individually with a MTSS/RTI technical assistance provider.

Register school team(s) by October 10, 2014, at <http://rtinebraska.unl.edu>
